**Instructions for the installation
of the Relay Kit (with or without transformer)
for INDEECO Vertical Unit Heater
“UVI series”**

CAUTION

Disconnect all power supplies before working on any circuit.

- 1) Assemble the relay to the 24V bracket (see above figure).
- 2) Secure the assembly (relay + bracket) to the UVI junction box.
- 3) Connect the relay (with or without transformer) according to the wiring diagram of the heater.
