

Indeeco Crib Heater

The Indeeco Crib heater is designed for easy and quick installation. The C-Channel is a slim 1 ¾ inches tall x 5 inches wide. Our Crib heater utilizes a sturdy round element which is 100% tested in our factory, passing extensive electric and water submersion tests. A robust perforated SST guard is attached to prevent unwanted items from contacting the heating element. The Indeeco Crib heater is built to be extremely durable so your track switch is always free of snow and ice.
